FOR IMMEDIATE RELEASE

Carahsoft Adds TeleMate's Scalable Network Monitoring Solutions to GSA Schedule

RESTON, VA, February 5, 2010 – Carahsoft Technology Corp., the trusted government IT solutions provider, today announced that its has added TeleMate.Net Software's scalable network monitoring and security solutions to its General Services Administration schedule. The products, which include both license software, Software as a Service, and appliances based solutions, address the government's need to enhance, measure, and report on the utilization and efficiency of their information technology and telecommunication investments.

"Organizations of all sizes use TeleMate.Net Software products to improve employee productivity and enhance network security with real-time monitoring of both Voice and IP networks," said John O'Reilly, TeleMate.Net president. "We are excited to partner with Carahsoft to make our solutions available more broadly to the government market place."

Currently in use in federal, state and local government agency networks nationwide, as well as in the networks of hospitals, universities, and government-focused enterprises around the world, TeleMate.Net Software offerings include TeleMate™ Unified Call Accounting, NetSpective™ Internet Content Filter, and NetAuditor™ Firewall Reporting.

"TeleMate.Net's sophisticated call accounting and network filtering/auditing software products enable agencies to address regulatory requirements, increase bandwidth capacity and performance, and help control and recover network costs," said Craig P. Abod, Carahsoft president. "We are pleased to add these security enterprise solutions to our portfolio of best-in-class technology offerings."
